Kerosene Due for an Advance

Kerosene is due for an advance in the market in what is known as the Standard Indiana territory, and also in Kansas today. It has been higher at the refinery than at the filling station and at the tanks at destination points. Naturally, it had to take a jump and now comes the report that it will be one cent higher beginning this morning. This follows an advance of one cent in the Pittsburgh district announced in yesterday afternoon's World.

The price of gasoline is not higher in the Standard of Indiana territory as has been announced by a local paper but ought to be and doubtless will be shortly or as soon as the roads dry up a bit. It has been the rainiest spring in the history of the weather bureau in many states that derive their supply from here.

At Wild Horse

E. N. Gillespie has a 40-barrel well in the No. 4, in the northwest corner of the southwest, northwest, northeast of 32-23-10. The well is producing from the Cleveland sand at 1,137 to 1,172 feet.

The Twin State Oil company is rigging up for a second test in the southeast corner of the northeast of the southeast of the northwest of 32-23-10.

The Texas company No. 8, in the northeast corner of the northwest, northeast, southeast of the section, is drilling at 1,400 feet and a rig is up for No. 9, in the center of the north line of the southeast of the same section.

The Margay Oil company No. 9, in the northeast corner of the southeast of the northwest, northwest, northeast of 32-23-10, is making 75 barrels in the Cleveland sand from 1,219 to 1,234 feet. No. 10 is a rig up.

The Empire Gas & Fuel Co. (Midland Oil) is rigging up No. 1 in the northeast corner of the southwest of 32-23-10.

The Atlantic Oil & Petroleum Co. No. 2, in the northwest corner of the northeast, northeast, southeast of 32-23-10, is also a rig up.

The Paloma Oil Co. (Steinberg and Lucas) are drilling at 400 feet in the No. 1 in the center of the west line of the northwest of 21-23-11.

Glen No. 1, in the northeast corner of the northeast, northwest of 20-23-11, is a rig up.

C. W. Titus and others are drilling near the top of the sand in the No. 1, in the southeast corner of the southwest, southeast, northwest of 12-23-10. The well is down 2,275 feet.

C. K. Dresser No. 9, in the southwest corner of the southeast of the section, is a rig.

Skelly and others are drilling at 1,000 feet in the No. 1, in the southeast corner of the southwest of the same section.

Skelly No. 4, in the northeast corner of the southwest of the northeast of 12-23-10, is drilling at 800 feet.

C. K. Dresser has a 30-barrel well in the Bartlesville sand in the No. 6, in the center of the west line of the northeast of 12-23-10. It is producing at 1,817 to 1,835 feet.

No. 7, in the northwest corner of the northeast of the section, is good for 160 barrels of oil from 1,750 to 1,765 feet. Top of the Bartlesville was got at 1,712.

The Kewanee Oil company No. 2, in the northeast corner of the northwest of the section, is making 75 barrels of oil in the Bartlesville from 1,732 to 1,741 feet. No. 3, in the center of the east line of the northwest of the section, is nearing completion at 1,600 feet.

The Fletcher Petroleum company has a rig up for the No. 1, in the center of the northwest of the northwest, southeast of the same section.

The Texas company No. 4, in the northwest corner of the northeast, northwest, southeast of section 36, is good for 30 barrels of oil in the Bartlesville. It is producing at 1,650 to 1,665 feet. No. 5, in the northwest corner of the southwest of 7, has the sand at 1,740 to 1,820 feet and is looking like a 20-barrel well. Total depth of the test is 1,940 feet. A rig is up for No. 6, in the center of the west line of the east half of the west half of the section.

C. K. Dresser No. 1, in the northeast corner of the northwest of section 17, is estimated at 75 barrels in the Bartlesville from 1,745 to 1,755 feet.

The Brenner Oil company has a 20-barrel well in the No. 1, in the southwest corner of 32-23-11. It is producing from a depth of 1,730 to 1,800 feet, total depth being 2,035 feet.

The Finance Oil company No. 48, in the southeast corner of the northeast, east of 32-23-11, is a failure at a total depth of 1,987 feet.

The Tidal No. 8, in the northeast corner of the southwest of 32-23-11, is down 1,250 feet.

The Atlantic Oil & Producing Co. is drilling at 2,550 feet in its No. 2, in the northwest corner of the northeast, southeast of 12-22-8. No. 3, in the northeast corner of the northwest, southwest of the same section, is down 2,200 feet.

The Amber Oil company No. 1, deep test in the southeast corner of the southwest of southeast, northeast of 25-23-8, is down 2,825 feet, and the same company No. 1, in the center of the south line of the southeast of 36, is drilling at 3,325.

The Atlantic Oil & Producing Co. has a rig up for No. 3, in the center of the north line of the southwest of section 12, is drilling at 1,000 feet in the No. 4, located in the center of the east line of the southwest of the same section.

The Johnson is down 2,260 feet in the No. 1 test in the northwest corner of 19-22-9.

The Central Petroleum company is spudding in the No. 1, located in the northwest corner of the northeast of 21-22-9. This is the same as the Margay Oil company.

The Minnehoma No. 1 well, in the southwest corner of the northeast of 30-22-9, is drilling at 2,400 feet.

Kansas News
In Butler county the Mid-Kansas & Inland Oil Co. on the D. A.

look after things much to their pleasure and enjoyment.

I have a herd of 33 Holstein and a couple of Jerseys for the house use, and I can tell you that when you come next summer to see me you will get fat. The house is an 11 room affair and exceedingly comfortable and more than beautiful as furnished. I go with great maple trees and best of all a brook swimming with trout and a spring which is just now being covered with an old fashioned milk house where the cream can be put in operation for old time's sake and the good butter.

Mr. Huff purchased this farm from H. M. Henson, who still owns eight farms in that beautiful valley where in flows the waters of the outlet of Chautauque Lake and Mr. Huff is proud in the praise of Mr. Henson, who has shown a genuine neighborly spirit in introducing his people to look after every want that might befall Mr. Huff. He might be just right all round, but Oklahoma is coming along mighty fast in this same direction.

Parade of the High Buildings

Some of the Lima bunch who are here are afraid of the big buildings and are spending most of the time looking up at the sky-scrapers and wondering how it ever happened that all these years while they were identified in a financial way with this field that they have never had a later report is being looked for it ought to make a difference of from 75 to 100 barrels by reason of the shot.

Important Meeting of Executive Committee

There will be a meeting of the Executive Committee of the Western Petroleum Refiners' association, at the Muebach Hotel in Kansas City at 10 a. m. May 21st.

Clifford Thomas of Chicago, who is commercial consul for the Association will be present and many questions of vital interest will be discussed and acted upon. A full attendance is urgent.

A Good Joke on the Landlord

When the Oklahoma Boosters' excursion was parading in Third street yesterday, it was met by a committee of prominent Tulsans including W. N. Robinson, landlord of Hotel
